PROJECTS

RecycleEasy: AI-Powered Recycling Assistant	Feb 2026 – Apr 2026
- Developed a high-performance waste detection system using YOLO (You Only Look Once), enabling real-time object detection and classification across 12 material categories from a 15,150+ image dataset. - Built and deployed a cross-platform mobile application using Flutter, featuring an intuitive, high-fidelity UI/UX designed for seamless user interaction and accessibility. - Engineered a robust mobile-to-cloud architecture by integrating the Flutter frontend with a Python/Flask backend, ensuring low-latency communication and efficient real-time model inference. - Implemented advanced features, including real-time geospatial bin-mapping and OCR-based text extraction, to optimize the system's material identification and user navigation capabilities.	

SKILLS

AI / Machine Learning:

- Machine Learning, Deep Learning (CNN, ANN, RNN)
- Model Training, Evaluation & Optimization
- Gen AI
- Natural Language Processing
- Prompt Engineering

Backend / Programming:

- Java
- Python
- Database Management Systems (DBMS) , SQL
- DSA
- Basic Backend Logic & API Handling

Professional Skills:

- Effective Communication
- Team Collaboration
- Interpersonal Skills

PROFESSIONAL ACHIEVEMENTS/ INSIGHTS

- Certified in Azure AI Fundamentals Certified by Microsoft (2025).
- E-commerce Benchmark Certified by SkillCred (2024).

CO-CURRICULAR ACTIVITIES

- Actively participated in college Hackathons, Technical Workshops, and Fests.
- Completed various technical online courses from Google, Microsoft, and Infosys.
