Education

GLA University, Mathura

B.Tech in Computer Science(Artificial Intelligent & Machine Learning & IOT)

2023–2027

CPI: 6.97

Kendriya Vidyalaya, Muzaffarnagar

Senior Secondary (XII) – 75.00%

2022

Secondary (X) – 83.00%

2020

Technical Skills

Programming: Python, Java, C/C++

AI/ML: Machine Learning, Deep Learning, Generative AI, NLP, Data Analysis

FullStack: HTML, CSS, JavaScript, Cloud Deployment

Tools: Hugging Face, Gradio, TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, MS Excel

Projects

Speech Emotion Recognition With Fusion – ML-Deep Learning(ANN,CNN) Model,
Frontend, Cloud Deployment

Aug–Nov 2025

- Building Deep Learning Model using ANN,CNN for Disease Human Emotion Suppression.

- Through Cloud Deployment & Frontend using HTML,CSS,JS For Better Use.

AI Education Assistant – Python, Gradio, ML

June 2025

- Built Q&A tutor, quiz generator, and risk predictor for students.

- Used Gradio for UI and classification models for risk.

Text to Image Generator – Python, Hugging Face, Stable Diffusion

Sep–Dec 2024

- Created image generator using Stable Diffusion 2.1 with DPM Scheduler.

- Converted text prompts to high-quality images.

GitHub: github.com/Parv-Upadhyay/Text-to-Image-Generator

Smart IoT Plant Health System – Arduino, ESP8266, Embedded C++

Oct 2023–Feb 2024

- Built offline monitoring of plant metrics: temperature, moisture, humidity.

- Integrated sensors and real-time serial data display.

Certifications

Azure AI Fundamentals – Microsoft (2025)

Cyberattacks & AI – Microsoft (2025)

Artificial Intelligence – HP (2025)

E-commerce Benchmark – SkillCred (2024)

Soft Skills

Teamwork, Problem-Solving, Adaptability, Effective Communication, Time Management, Continuous Learner

Activities

Participated in Hackathons, Technical Workshops, College Fests; Completed Online Courses from Google, Microsoft, and Infosys.
